

# Galileo Team Project: Final Exhibition

What? 15-20 minute presentation to the entire Galileo group

When? Tuesday 5<sup>th</sup> April

Why?

1. To communicate to the Galileo group what you have achieved with your team, as well as the challenges you have faced.
2. To use visual imagery to communicate your personal experience of the Team Project.
3. To practice and demonstrate your public speaking skills!

## Presentation Format:

### 1. **The Basic Facts** (all team members together) (3-5 minutes)

- Your Team Project topic
- Outline what major themes and questions emerged during your research
- Action project
  - Outline what you did for your Action Project
- Options trail
  - Outline what you did on your Options Trail (four locations, interview, etc.)
  - Explain 1 or 2 of your questions which you made progress on.

### 2. **Your Journey** (each member individually) (3 minutes each)

- Present an image (simple or multi-layered) that represents your journey or experience of the Team Project.
- You should:
  - Explain why you have chosen your particular image(s).
  - Describe your personal experience of working in the group by referring to features of the image.
  - Explain the main things you have learned through doing the team project (about yourself, your team-mates and how teams operate).

### 3. **Conclusion** (all team members together) (3-5 minutes)

All members of the team come together again and give their final summary of their team experience.

- Challenges
  - Outline the biggest (one or two) challenges your group faced, in terms of the group and/or work process.
  - Outline how you overcame (or didn't overcome) these challenges.
- Give an example of how members of the group showed initiative or brilliance.
- Outline your team's (one or two) greatest achievements.
